

Manufacturing cutting edge materials to help our customers solve complex thermal runaway and fire protection challenges in Electric Vehicles

• Cell • Module • Pack •

MATERIAL SOLUTIONS

Extensive range of high temperature insulation products used to thermally manage battery and fuel cell systems

APPLICATION ENGINEERING

- Initial definition of your application with engineering
- Research to find the best material for your system
- Development of prototypes and pilot production
 - Supply from a few units to thousands

ABOUT MORGAN ADVANCED MATERIALS

Morgan Advanced Materials is a global engineering company offering world-leading competencies in materials science, specialist manufacturing and applications engineering.

We focus our resources on the delivery of products that help our customers to solve technically challenging Problems, enabling them to address global trends such as energy demand, advances in healthcare and environmental sustainability.

What differentiates us?

Advanced material science and processing capabilities. Extensive applications engineering experience.
A strong history of innovation and reinvention. Consistent and reliable performance.
A truly global footprint. We find and invest in the best people.
